**DETAILED ACTION**

1. This Office Action is directed towards the Applicant's response filed 6-28-2008. Claims 1-15 are pending in the instant Application and have been examined.

***Response to Arguments***

2. Applicant's arguments filed 2-26-2008 have been fully considered but they are not persuasive.

The Applicant argues in traverse of the rejections of claims 13 and 14 as non-statutory under 35 USC Sec. 101. The Applicant argues that the addition of the language of: "In a communications system," renders the claim statutory since the claim is thereby directed towards a practical application. However, there is still no language in the claim that clearly indicates that the modified algorithm is being used to encrypt data or a message that is transmitted using the communication system and hence the claim still does not recite a practical application for the modified algorithm.

***Claim Rejections - 35 USC § 101***

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 13 and 14 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

As for claim 13, the claim is directed towards a method for "mitigating a weakness" in the Cellular Message Encryption Algorithm (CMEA). As such, the claim limitations recite only method steps for the manipulation data. The claim is therefore directed towards a judicial exception to the statutory classes of invention eligible for a US Patent under 35 USC Sec. 101. The claim does not recite a limitation that represents a practical application of a judicial exception to 35 USC Sec. 101 since the limitations are all directed only towards mathematical steps that may be useable in a larger mathematical algorithm.

Claim 14 is dependent on claim 13 and does not recite a limitation that cures any deficiency of claim 13. Therefore claim 14 is rejected on the same basis as claim 13.

#### ***Allowable Subject Matter***

5. Claims 1-12 and 15 are allowed.

#### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
